

CHILD-RESISTANT CAPS FOR WINTERGREEN

Due to rising safety concerns regarding the naturally occurring substances in Wintergreen, our team at RMO has voluntarily recalled our Wintergreen essential oil, as well as the blends that feature this oil, in order to include child-proof caps on the bottle. If you have purchased a bottle of our Wintergreen essential oil or one of the following essential oil blends in recent months, and need to replace the cap with a child-resistant one, please follow the instructions below:

HOW TO REPLACE CAPS WITH CHILD-PROOF

- 1) Remove the existing cap from your essential oil bottle by twisting counterclockwise.
- 2) Place the child-safety cap onto your essential oil bottle, and tightly screw on by twisting in clockwise motion.
- 3) To remove the safety cap, press down while twisting counterclockwise. Tightly replace whenever not in use.
